

The UK Branch of WPSA 33rd Poultry Science Symposium on "Pre and Pro biotics, nutritional, veterinary and production perspectives", to be held in Cambridge, 10-12th August 2020

Symposium Poster Abstracts

Abstracts will be considered if they are applicable to the title of the meeting and the related context of gut health.

All abstracts accepted for the symposium will be included in the book published by CABI based on the symposium.

The abstract submission process is an entirely online process, you will need to produce a word document of your abstract to upload and enter a short (no more 500 characters) plain text summary of your poster.

Abstract format

Abstracts should contain original material that has not been published before in any English publication

Abstract Title - **max 150 characters** (approx 25 words)

Abstract Text - max 3000 characters, which is approximately 250 words

It is recommended that the following headings are used when submitting abstracts:

Introduction and Aims
Aims and Objectives
Material and Methods
Results
Conclusion(s)

Please begin each new section with the above headings and type them in initial capital letters e.g. "Introduction and Aims"

All abbreviations used must be described fully in the text once.
